The figures in this brochure, provided by the National Bank of Belgium and processed by the Belgian Foreign Trade Agency, are provisional results which have been partially rectified.
Due to rounding off and/or changes in real time in the data base the totals in the various tables may differ from the sum of the sections (one digit after the comma).

The following statistical data are based upon the community concept and not upon the national concept that relies on the principle of economic residence. The community concept takes into consideration e.g. the import and export transactions carried out by VAT registered non-residents without the intervention of residents. Returned goods are also taken into account.
